Memo.

D.P.W. Secretary's docket No: 3437 of 22 October 1875

With his letter No: 215 of 10 September 1875 the President of the Bangalore Town Municipal Commission submitted for early sanction the marginally noted three estimates and plans. As the amounts of the estimates exceeded Rs: 500 they were sent to the D.P.W. Secretary for check and return. He returns them with a Memo by Major Chrystie on the estimate for reconstructing the anicut & the Dharmambudi tank, and states, that the other two estimates call for no remarks. From Major Chrystie's Memo ~~dated~~ in question it would appear that the estimate for the repair

& the Drainage tank has been planned on a very extravagant scale & that it is useless to criticise its details as the work has already been carried out. & There are no signs of the silt-basin ever accumulating as stated in the Report attached to the Estimate, & any where near the level of the top of the silt-basin, & it is more probable that the breach was intentionally caused by the people who cultivated the bed of the trap whose crops are flooded by the water ponded back from the silt-dam - the source of this danger still exists, & any one looking at the silt deposited in the head of the tank can see how essential it is that the silt-trap should be

maintained

2. The amounts of the Estimates for reconstructing the anicut to the Dharmam-koody tank and for constructing leading steps on the south side of the present Koombas-gundy Reservoir have been revised in the Public Works Department as follows

Estimate for reconstructing the anicut from Rs 510 to 512.

Estimate for constructing leading steps to Koombas-gundy Reservoir — 650 to 651

3. These three works were sanctioned in Chief Engr's Proceedings No 9530 of 31st March 1875. No 720 hereunto submitted, and the Estimates & plans may be returned sanctioned to the President with a copy of Major Thompson's Memo referred to above.

15/10/75

In returning the Estimates sanctioned for the Works proposed by the PWD, the President desires that the attention may be called to the remarks made by the Dept Engr that the Estimate No 27 has been prepared on an extravagant design, & the Board of Revenue are probably right in the other cause that stated - in addition to the Pres' in carrying out this work prior to sanction of the Estimate has been incorrect - The Budget & Annual Estimates of the Annual Forecasts of Supplies & Expenditure should be framed by the Superintending Engineers

Mem 359.

In Continuation of D^o 325 of the 15^th October 1875.

Orders based upon the foregoing observations were communicated to the Resident Town Municipal Commissioner Bangalore, who in reply requests to be supplied with an Extract of Major Chrystie's remarks on the Estimate for the repair of the Dhurmaum body Tank -

With reference to the ~~remarks~~ observations contained in para 2 of this office docket No 605/329 of 22^d. October 75 the Resident states that the work was proceeded with in Consideration of the urgency of the repairs required to be executed

before the advent of the present monsoon and considers that his action in the matter was justified in as much as the project was entered in the Budget and approved of by the Chief Commissioner.

A copy of the Supt Engineer's Memo referred to by the President may be furnished as requested, but the explanation offered in support of the course followed by him in carrying on the work in question prior to the receipt of sanction from the Chief Commr is not based upon proper reasons.

The Budget in which the work was entered, was

If any Supt Engr recommends to Govt his action in approval in general terms of his Budget Statement which includes an item of outlay does not imply sanction to each such work where he does exceed his powers of sanction by

Sanctioned with reference
to the general forecaste
of Receipts and Expenditure
but this did not imply
of Course Sanction to proceed
with works exceeding Rs 500
in Cost.

As the amount of
the estimates exceeds Rs 500
they may be sent to the Engr
for check and examination
plan rates Charged.

As we have not as
yet come across the Pro-
Cantonment Station in Bom-

Pakhes for Cantonment, their expenses may be essentially such pais in the manner ordered in the Circular Cantonment Code Chapter Cantonment Code of 1871/72. In that case the Cost of Rs 950 which appears the same must henry for Construction of Cantonment houses may be met by suspending the payment of plinth allowances for a period of 14 or 16 months - Engr 15/9/75.

Since writing the above I learn that the Municipality has spent a sum of Rs 5275-8- for the repairs of these Chabutras, and if this is considered as a precedent, the Municipal estimates may be sanctioned and the expenses essentially of this Cost of Chabutras Municipality - Engr 16/9/75 20-9-75
